

Tropical Seas[®]

Your Sun Protection Factory

Our business is sun protection, and we pride ourselves in biodegradable sun protection of the highest quality.

All products filled in a climate controlled HEPA filtered production room.

So whatever your customer's formula preference we have them covered!

Reef Safe[®]

BY TROPICAL SEAS[®]

- Original UVB protection SPF: Proven Non-toxic to coral & sealife
- Higher UVA protection SPF: Proven Non-toxic to coral & sealife
- NEW** Oxybenzone Free SPF: Proven Non-toxic to coral & sealife

TROPICAL SEAS, INC. NOW INTRODUCES A NEW STATE OF THE ART MINERAL BASED SUNSCREEN WITH 02 ANTI-AGING TECHNOLOGY!

NEW Land Shark Mineral Based SPF

Available in Transparent or tinted SunKissed mineral based sunscreen utilizing Zinc Oxide and Titanium Oxide combination that applies very sheer and elegant, and will NOT leave behind a heavy greasy white mess on your skin. The world does not need just another greasy whitening mineral based product, and we are sure you will see and feel the difference. Land Shark is also 80 minutes water resistant, and formulated to stay on your skin in a breathable film.

Example of coral setup for each individual tank in the raceway. Each tank contains 5 each specimen of coral.

©2016 Tropical Seas, Inc.

Coral health was evaluated daily per FWC guidelines and recorded. During 20 days of dosing twice per day (even at 30 times EEC), the coral showed NO signs of stress or bleaching and NO mortalities! In fact, the coral exhibited less than 0.05% variance.
